TECHNICAL SKILLS

Python, Java, SQL, HTML, CSS,

JavaScript, React

EDUCATION

Bachelor of Science in Computer Science

University of Alberta | Sep 2017 - Apr 2022

WORK EXPERIENCE

Computer Science Teaching Assistant

University of Alberta | Jan 2022 - Apr 2020

- Supervised weekly labs with 20 students that supplements an introductory computer science class
- Educated students on good coding practices and various methods to debug code
- Monitored online discussion forums to further aid students outside of regular class hours

PERSONAL PROJECTS

Dear Diary

github.com/eesayas/dear-diary

- Collaborated in a team of two to create a voice responsive virtual diary using the Speech Recognition API
- Implemented the ability to navigate through different pages using specific voice commands and create diary entries through dictation
- Coded reusable React components to reduce code repetition

Password Manager

github.com/amreesalmonte/password-manager

- Developed a password manager as a free alternative to paid subscription services
- Included basic functionalities where a user can add and manage passwords associated with different sites
- Enhanced security by making the application accessible only by password set by the user and resetting the database after a certain number of attempts

EXTRACURRICULAR ACTIVITIES

Volunteer Tutor + VP Academic

Ada's Team | Sep 2019 - Present

- Tutored over 50 students in a variety of computing science topics such as Python, SQL queries, and Object Oriented Programming
- Volunteered in various events throughout the school year to foster a sense of community
- Managed a free tutoring service utilized by more than a 100 computer science students each school year
